

What Is GRIP?

GRIP offers its members free safety training!

When you are a member of the MBIA through your local HBA, carry workers' comp insurance through Montana State Fund, and you have a qualifying E-mod factor, you may qualify for the powerful group incentive plan known as GRIP.

This is an incentive driven program that allows you to take charge of your insurance costs by reducing accidents and providing a safe and compliant workplace for your business while reducing overhead costs with a potential for a performance return on the policy.

If you are a member of MBIA, and are interested you may reach out to the MIBA or Montana State Fund to see if you qualify!

GRIP OFFERS:

- △ Free Safety Training and Certifications for those enrolled in the GRIP plan with Montana State Fund.
- △ Free Onsite Consultation & Training focusing on identifying any potential OSHA violations.
- △ Free Safety and Health Programs catered to your business needs.

GRIP

Guiding Readiness; Insuring Prevention

A Program Managed By:

MBIA

Montana Building Industry Association
