

We are the voice of the home building industry in Montana

Your Voice

- **Promote Your Business**

Develop Lasting Relationships and cultivate sales through marketing and networking opportunities.

- **PRO Business**

Through Political Action Committees, join the front line of the political arena and ensure your local, state and national business statutes and regulations remain reasonable.

- **Give Back**

Serve on a board & Grow the industry

MBIA's Efforts

- **Legislative Advocate**

Through direct advocacy, grassroots organization, public testimony we ensure legislators are fully informed on issues that impact Montana's small businesses and that housing remains attainable.

- **Building Code Watchdog**

MBIA fosters relationships with DLI to ensure that Building Codes remain practical and realistic.

- **State Convention & Board Meetings**

Join your counterparts at our State Board Meetings and Conventions!

Three in One

- **Collaborative Effort**

Your Local, Your State and Your National. We are a three tiered federation of associations who are all here to represent you.

- **Industry Updates**

Stay competitive and informed through first rate information exchange at all levels.

Affiliated With

Montana Building Industry Association

The Voice of Montana's housing industry since 1968

Join Locally, Gain State & National!

Southwest Montana BIA

Incorporated in 1978, SWMBIA is an affiliate of the National Association of Home Builders (NAHB) and the Montana Building Industry Association (MBIA). We are headquartered in Bozeman and hold the same goals and standards as NAHB and MBIA

HBA of Billings

HBA Billings, along with the Montana Building Industry Association (MBIA) and the National Association of Home Builders (NAHB), fights for the rights, regulations, and legislative changes that affect the building industry and our members. We represent our member interests and continuously advocate for improvements in the industry.

Bitterroot BIA

Serving to unify and enhance the building industry in the Bitterroot Valley through education, community involvement and quality construction practices.

Great Falls HBA

The Home Builders Association of Great Falls is a membership organization that has been advocating for local building industry professionals since 1965. We are dedicated to helping members share knowledge, expand their network and grow the business for everyone. Membership puts you in touch with important area professionals, trades people and suppliers.

Missoula BIA

Represent and promote the building industry through advocacy, outreach, high standards, integrity, education and investment in the community in which we live and work.

Helena BIA

We are an association of business people drawn together by home building, working to raise the standards of the building industry through education and civic involvement for the betterment and positive growth of our community and industry.

Flathead BA

The FBA is a non-profit membership organization with over 40 years of experience dedicated to promoting professionalism, credibility, quality and vitality in the Building industry to the benefit of its members and citizens of Northwest Montana.

Upper Yellowstone BIA

The UYBIA is a new NAHB Local Association headquartered in Livingston; dedicated to serving Builders, Businesses and Homeowners in Park and Sweet Grass Counties.

We Advocate For You.

Water.

We work with the Department of Natural Resources and Conservation on preserving the rights of Montanans' access to our most abundant natural resource, and we maintain that exempt wells are a necessity for affordable and attainable housing development.

Workforce Development.

Through our newly formed Foundation, we aim to bring safety, education and job opportunities to our future generations, and we train our members on Safety all year long.

Supply Chain.

We support buying American. We support better foreign policy. We support American Jobs. We support small business incentives and relief. All of which will improve our supply chain woes and reduce the cost of building a home.

Building Codes.

We work closely with the Department of Labor and Industry on building code regulation and reform. We bring common sense and real world application to the table when we fight for changes to adopted codes. We looise restructure and expensive code changes.

Local, State & Federal.

Subdivision review is taking too long. Duplicative and Complicated Governmental processes delay progress. Growth policies are not being followed. Rules are being violated and development is being unnecessarily delayed. All of this adds to the cost of building a home. We advocate for efficiencies that ensure housing affordability and attainability.

NAHB.

NAHB offers members federal advocacy, disaster relief, legal assistance and many other benefits. NAHB members also save thousands of dollars each year thanks to NAHB's advocacy efforts and other member benefits. While home building is a challenging industry, NAHB's resources, expertise and educational opportunities can help you build a better product, build a better business, and create a more positive business environment.

WWW.NAHB.ORG

We Offer Safety Training.

GUIDING READINESS INSURING PREVENTION

MBIA's GRIP Safety program has been recognized as NAHB's National Safety Program of the Year and we are always improving.

Funded through Montana State Fund, we promote safety on the jobsite through classroom education, onsite training, safety audits and specialized classes to meet the specific needs of your company.

If you are interested in building a safer company, we can help!

Requirements

- You must be a member of MBIA
- Montana State Fund must be your Workers' Comp provider
